

SCCAA 2022 Agency Management Accomplishments (090)
Submitted into Egov

#1 Describe up to three notable management accomplishments achieved by the agency during the reporting year (2021). Describe how responsible, informed leadership and effective, efficient processes led to high-quality, accessible, and well-managed services and strategies.

- 1) SCCAA's sub-grantee, Sutter Yuba Homeless Consortium increased staff to include a Grant Manager in late 2021, and an Executive Assistant in late 2022. The goal is to be a professionally staffed organization that is not reliant on consultants to operate the day-to-day workings of the Consortium. In the coming year, the goal is to work on ways to streamline reporting for our partners and continue to communicate filing deadlines and requirements. As new grants come in, we will offer training to our sub-grantees for reporting. We will be more cognizant of the practicality of reporting deadlines and adjust accordingly to make them realistic when we send out our agreements.

Expanding our staff will help us centralize and improve data collection so we can track outcomes and results for reporting to various agencies. When we have more accurate data, as an organization we are better able to work with our partners to obtain funding for more impactful projects and target gaps in our current homelessness delivery services. We are also applying for additional private grant funding with our increased staff. Thus far, approximately \$300,000.00 in private grant funding was awarded in calendar year 2022, and we are hopeful to increase that amount in 2023.

- 2) SCCAA's sub-grantee, Sutter Yuba Homeless Consortium--Salvation Army has been transitioning to electronic forms to improve communication, data collection, and increase efficiency. Electronic forms include public health screenings, shift logs, volunteer timesheets, warning notices, unit inspections, case reviews, maintenance requests, etc. This will improve outcome reporting and accuracy in the future, while allowing staff to become more efficient, allowing for better client service.
- 3) SCCAA's sub-grantee, Yuba-Sutter Food Bank, updated its subscription-based data program designed for food distribution that has allowed them to track multiple elements of their programs through the purchase of iPads for data gathering. This new tracking method and the equipment has benefited local Food Pantries, Distribution Days, Pop-up Giveaways and their Silver Fox Program. Before this program was implemented, distribution times and deliveries were cumbersome. It would take the distribution delivery team hours to get the items from inventory. With the new equipment, distribution times have been reduced to under an hour and workflow has been streamlined to meet the agency's needs.

#2 Provide up to three examples of ways in which the agency addressed a cause or condition of poverty in the community using an innovative or creative approach. Provide the agency name, local partners involved, outcomes, and specific information on how CSBG funds were used to support implementation.

- 1) **Agency/Program Name:** Sutter County Community Action Agencies sub-grantee, Sutter Yuba Homeless Consortium--Regional Emergency Shelter Team (REST)

CSBG service category: Housing

Description of program: REST provided educational services to people experiencing homelessness outside of its normal shelter season. Recognizing that lack of education, lack of life skills, and previous and present circumstances such as eviction, poor credit, criminal history, and lack of income are causes of poverty and chronic homelessness, REST provided a training course called Ready to Rent.

How innovative/creative: This program educates people to be successful renters by gaining skills such as budgeting and communication and by overcoming barriers from the past such as poor credit. This was innovative for REST because it helps REST address underlying causes of poverty and continued homelessness while REST continues to provide emergency shelter and meals to people experiencing homelessness.

The goal is to increase the number of people successfully transitioning from REST's shelter (and other shelter programs) to permanent housing. Partner agency Coordinated Entry asked REST to provide this course. Partner agency Hands of Hope contributed the use of its classrooms at both Hands of Hope and the Life Building Center for REST's use in offering this course to homeless clients in Yuba and Sutter counties.

Outcomes achieved: REST provided an abridged version of this material to the 58 households which utilized REST's shelter this year and provided the in-depth classroom instruction to 24 clients.

How CSBG funds were used: CSBG funds were used to support staff salaries for providing this education to homeless clients.

Local partners involved and how contributed: Partner agency Hands of Hope contributed the use of its classrooms at both Hands of Hope and the Life Building Center for REST's use in offering this course to homeless clients in Yuba and Sutter counties.

- 2) **Agency/Program Name:** Sutter County Community Action Agencies sub-grantee, Sutter Yuba Homeless Consortium—Salvation Army Depot Family Crisis Center

CSBG service category: Services Supporting Multiple Domains

Description of program: The Salvation Army Family Crisis Center is a 64 bed 24-hour emergency shelter for homeless families, couples, and single females focusing on self-sufficiency for long term success.

How innovative/creative: This program is the only program in the Yuba-Sutter community offering residential substance use treatment as well as shelter in which the entire family can remain together. This program addresses several causes and conditions of poverty by providing recovery, self-sufficiency, family reunification, stabilization, and support.

Outcomes achieved:

- 15 households obtained and maintained safe and affordable housing
- 23 adults participated in employment readiness classes and activities
- 23 adults participated in parenting classes
- 23 adults enrolled in self-sufficiency program
- 18 adults enrolled in recovery program

How CSBG funds were used: CSBG funds were used to staff program specialists and program support positions. These positions are critical in the implementation of all program components. This year Salvation Army hired new staff positions to oversee the Crisis Center and 14 Forward Shelter in Marysville. Staffing has been brought up to pre-Covid standards. In 2022, Salvation Army was able to assist in more Prevention assistance than any previous year.

Local partners involved and how contributed:

Yuba and Sutter County Health and Human Services provide referrals and are a contracted funding partner, Yuba and Sutter County Child Welfare/Protective Services provide referrals and are a contracted funding partner, Yuba and Sutter County Probation provide referrals, Yuba and Sutter County One Stop provide resources & class instruction, Family SOUP provide referrals to parents w/ special needs children and Head Start provides referrals to parents w/ preschool aged children.

#3 Provide up to three examples of changes made by the agency to improve service delivery and enhance impact for individuals, families, and communities with low incomes based on their in-depth analysis of performance data.

- 1) Sutter County Community Action Agencies sub-grantee, Sutter Yuba Homeless Consortium—Bridges to Housing reported the following:

Problem: Increase of housing rental deposits from approximately \$1,000-1,500 to \$2,000-3,000 as well as landlords moving out tenants under the guise of renovating properties so they can then rent units for much higher amounts.

Insight/change based on performance data: Clients not being able to afford even getting into a housing rental and long term housed families/individuals now becoming homeless. To address this immediate need, Bridges to Housing is assisting families at a prevention level to avoid becoming homeless by helping them keep their housing before they are on the street.

Changes made: Bridges to Housing revised their funding policy to reflect the market increases of deposits and they increased the number of months of rent to assist the clients depending on the need. Any client, whether an individual or family, needs to locate suitable housing for themselves, the rent for which can be no more than 60% of their household income to be eligible for the increased amount based on Federal Poverty Guidelines. The program is ongoing and targeted to homeless and low-income residents of Yuba and Sutter Counties. The Increased Financial Assistance Policy was implemented in 2022.

- 2) Sutter County Community Action Agencies sub-grantee, Sutter Yuba Homeless Consortium—Casa de Esperanza (CASA) reported the following:

Problem: Individuals felt restricted with old policies that CASA had in place before, and this led to clients exiting the program prematurely, or having a difficult experience.

Insight/change based on performance data: CASA identified a need to streamline the process for clients to get the assistance they need efficiently and effectively. This problem was detected by administration observation, feedback from clients, staff input, and CASA statistics.

Changes made: CASA has now undergone some structural changes that include a Case Manager position that will allow the staff to build a structure for referrals, appointments, advocacy, and resources to better assist clients as well as a Counseling Program that has staff who are assigned Counselor/Advocates that will pick up clients from the waiting list both in-shelter and outside clients.

In addition, CASA has undergone some policy changes that have allowed in-shelter clients some freedom and flexibility within reason that has allowed clients to feel more empowered and capable and has reduced early exits for vulnerable clients.

- 3) SCCAA's sub-grantee, Sutter Yuba Homeless Consortium--Adventist Health reported the following:

Problem: Adventist Health homeless outreach program was not efficient and effective, their food closet was very small and had little inventory and they only focused on those who were food insecure, meaning they had limited or no access to resources including food, housing, money etc.

Insight/change based on performance data: Staff interaction with clients and repeat visits to the emergency room.

Changes made: They hired a dietician that successfully added supports and services to individuals who were medically vulnerable and whose health could be improved with the addition of meals that are medically tailored to their specific health condition. This included individuals with health concerns such as Diabetes, CHF, COPD, and more, connecting them to resources that provide 2 free medically tailored meals a day. These meals are specifically tailored to their diagnosed health condition, in turn improving their quality of life and overall health.

They were able to increase the food pantry size, increase storage capacity, bring a higher level of oversight, expand inventory, and purchase refrigeration and freezers to expand further to provide meat (protein), fresh fruit and vegetables and dairy items. They also implemented additional policies and procedures to ensure high quality operations.

Additional processes and procedures, as well as additional storage and food inventory allowed Adventist to better partner with the community and expand to deliver food and nutritional services to Adventist's clinics, Adventist's cancer center, and local farm workers and low-income households, including those experiencing homelessness.

2022 Sutter County Community Action Agency

H. number of individuals engaged with the Community Action Agency who report **improved financial well-being**.

Z. Other Income and Asset Building Outcome Indicator

number who increased income from a non employment source
