

SCCAA 2021 Agency Management Accomplishments (090)
Submitted into Egov

#1 Describe up to three notable management accomplishments achieved by the agency during the reporting year (2021). Describe how responsible, informed leadership and effective, efficient processes led to high-quality, accessible, and well-managed services and strategies

- 1) SCCAA's sub-grantee, E Center, reported the following: E Center was able to utilize their interns to perform a community needs assessment which established a higher understanding of the needs of the community and how they can help fulfil the needs of those families at risk.

E Center was able to establish a bigger digital footprint which resulted in increasing their local audience through social media interaction. The more people they can reach and the better their brand recognition is in the community equates to serving more at-risk families.

E Center was able to expose their interns to work inside a pre-k classroom. It is a unique experience for the interns. The community benefits from that exposure lead to interns choosing a career in pre-k or choosing a career in another industry. Similar to most communities, Sutter has a need for more early childhood educators. When they can establish a good fit for the ECE industry it increases their continuity of care by eliminating hasty resignations as a result of poor career choice.

- 2) SCCAA's sub-grantee, Sutter Yuba Homeless Consortium-Adventist Health reported the following: Adventist implemented changes to their organizations infrastructure aligning under community well-being and structuring a team; they identified alternative methods for delivering services to better meet the needs of the community by adding additional outreach locations, adding a medical van, and adding tele-health platform; they have continued to engage in effective partnerships and stakeholder building; they also implemented a new process to collect and analyze data including utilizing HMIS for all data tracking, nursing assessments, housing projects, and reporting.

#2 Provide up to three examples of ways in which the agency addressed a cause or condition of poverty in the community using an innovative or creative approach. Provide the agency name, local partners involved, outcomes, and specific information on how CSBG funds were used to support implementation.

- 1) **Agency/Program Name:** E Center internship program

CSBG service category: Employment

Description of program: To provide low-income young adults with necessary skills to navigate successfully in a professional environment. Skills such as resume writing, interview coaching and proper office etiquette were also provided as part of their benefit package being an E Center intern.

How innovative/creative: The program provided paid internship positions for low-income college students exploring a variety of career options including early childcare, marketing, business development, finance, human resources and more. No other program like this was available in the community.

Outcomes achieved:

7 interns were hired, and 6 were able to secure FT employment when their internship had concluded. Two of the six were offered FT employment at E Center.

How CSBG funds were used: The CSBG grant paid the intern wages. Without the funds the internship program could not exist.

Local partners involved and how contributed:

No partnerships were used in our internship program.

#3 Provide up to three examples of changes made by the agency to improve service delivery and enhance impact for individuals, families, and communities with low incomes based on their in-depth analysis of performance data.

- 1) Sutter County Community Action Agencies sub-grantee, Sutter Yuba Homeless Consortium--REST reported the following:

Problem: The shelter intake process was intimidating and restrictive and they administered a drug test to new prospective clients which provided a barrier to those in need who failed the drug test.

Insight/change based on performance data: Staff and client feedback indicated the frustration and inability to help a lot of prospective clients.

Changes made: REST abolished the drug testing policy in 2021 in the interest of removing a barrier to shelter entry. REST turned to a behavior-based model, meaning clients were allowed to enter and remain in the shelter as long as their behavior was respectful and safe to the others at the shelter. The results were positive. Not only was the intake process less intimidating and less restrictive to new clients, but REST did not have an appreciable increase in problematic behaviors at the shelter even after doing away with drug testing. As REST enters a new winter season, it is moving forward with this housing first, behavior-based model to keep its shelter accessible to those in need.
